

STEADY FLOW

From the heart of the Midwest, Steady Flow delivers a unique style of powerful funk music like you've never heard it before. Formed in 2012 by 18 year old, soul guitarist extraordinaire, Tanner Brown, and his older brother, Ky "Goonie-Mom" Brown on bass guitar, the group has now transformed into a six-piece funk-powerhouse, quickly claiming their spot as one of the best live acts around.

The band is constantly turning heads at every performance as their hard hitting Funk Rock compositions shake the room and force all audiences to dance, rage, & simply feel good!

Steady Flow released their first EP, "The Oneoff Sessions" in 2013, and their debut album, "Loud." in June 2015. The band releases their upcoming full-length album, "Do You Like That?" on April 21st, 2017. Do not miss a live show near you. Steady Flow is "The Future Of Funk."
